Summary

- Install the iOrienteering App and set up an account
- Please use your first & last name as the username
- When you have a signal or wifi access, log in to iO and load the course using the code provided
- Close unwanted apps and set phone to airplane mode.
- Press "Return to Event"
- Once you are at the start "Pre-Start Course" will change to "Start Course", press it and set off
- Keep more than 30m away from the finish control
- If CPs don't register, press "Home" & "Return to Event"
- Once finished and you have a mobile data signal or wifi access, press "Upload"

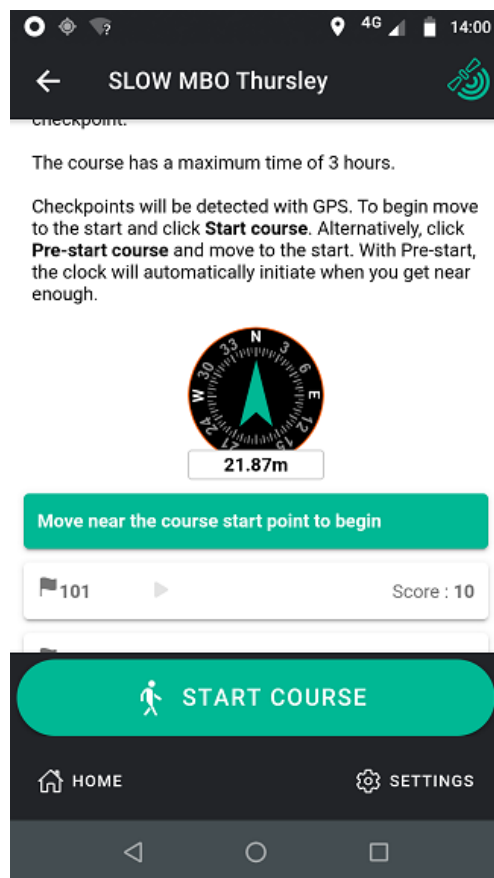

Version 2 - 10th Dec 2021

Link to more detailed [iO Instructions](#) from Black Mountains MBO.

Mounting the phone on your bike is recommended but not essential. You may find that the majority of CPs will be detected with your phone in your pocket or bag. If they do not beep then pressing "Home" and "Return to Event" should detect them immediately. For the practice event, the map in the App will show exactly where you are relative to the CP.

There is a signal on at least the 3 and EE networks at Thursley. You will need a signal to load a course so it is best to pre-load it before you arrive.

If CPs don't beep you may claim them. Most of the course has been checked on the ground so you should find the locations.

Additional Notes

- Public bridleways, byways, roads and white roads are permitted.
- All Permissive bridleways are allowed & are marked on the map with blue dashes.
- Tracks =====, paths ----- (black) and footpaths ----- (green) are Out of Bounds.
- Give way to other trail users particularly horses and walkers. The top of the Devil's Punch Bowl can get very busy. Valid routes have clear marker posts.
- Routes off the map are not permitted. If you inadvertently leave the map, return at the same point without riding through any controls.
- The bridleway on the north side of The Moat Car Park on Thursley Common has fallen into disuse, you may ride through the car park instead.
- The A3 is out of bounds. There are 2 underpasses which are marked on the map.
- Highfield Lane running south from Thursley is narrow and twisty with limited visibility. Take care especially when returning to the start.
- The byway east of Gibbet Hill is a steep rocky gully. It may be used upwards only. Lifting e-bikes up the rock steps would be difficult. The nearby bridleway is also steep so using the A3 underpass may be preferable.
- The "Old A3" provides a smooth gradual route to the top the Punch Bowl.
- The National Trust car park area is OOB unless you want the loo or a cake stop!
- **A lot of rocks and debris have been washed onto the trails so please take care especially on the descents.**

YOU MUST REPORT BACK TO THE FINISH EVEN IF YOU RETIRE

National Governing Body for Mountain Bike Orienteering

SLOW MBO

Entry Form

Date: 12/12/21

Event: Thursley iO

Please print & complete this form, then send a scan or photo of it to mtbscore@slow.org

Course:

~~2-Hour~~ 3 Hour

Completion of this form ensures that the Rider detailed is treated as a member of BMBO for the date of this event.
